EDUCATION comes high, yet we must have it. It seems our education on the war tariff has been exceedingly costly, and will prove more so in the future. We can only be led along the dark pathway by the lamp of experience, and this is a lamp that sheds no ambient rays over the future. For instance, the iron men poured out a large surplus of their ample millions to defeat Grover Cleveland and elect General Harrison President. This was done to save our so-called Protective system. Now that they have had their way and the system is saved, the result does not seem justicy the means. We clip the fol-

Senator Ingails, President pro tem of

the United States Senate, a robust rad-

interview on the Southern question.

He takes the ground that there is a

between the white and black races in

the South, and that the determination

of the Southern whites to control the

political situation is natural. He says

the whites of the North, under similar

conditions, would do the same. These

are reasonable utterances to come from

a man of Senator Ingalis' fiber. He

has always been classified as a malig-

advocates of manhood suffrage, so

Of course the White Cape are to be denounced, but what shall we say of the condition of society that prompts the organization of the White Caps. We are talking about Ohio now, and not of the barbarians that we are wont to discuss, way down in Dixie. There are said to be 300 White Caps in Brown county, Ohio; 200 in Adams county, and as many in Highland county. The persons whipped or scourged by the White Caps are all bad eggs, both male and female. A dispatch from Sardinia,

Brown county, says: "A cordial rivalry exists between Sardinia and Mount Orab. The citi-zens of each place tell the most scandalons stories about the other. It has been ascertained that there are at least three men in Sardinia and vicinity who belong to the White Caps. One of them belong to the White Caps. One of them gave the information upon which Adam Berkes was whipped. The probable leader of the regulators in Brown county is an influential and respectable farmer who lives a short distance from Greenbush. There have been many crimes in Mount Orab which would seem to justify such measures. Until a short time ago no one could leave a horse and buggy standing on the street without ouggy standing on the street without

having his whip and lap-robe stolen. The moral condition of this part of Brown county is sadly dilapidated. Some decidedly unsavory stories could be told, which, however, are not news to the residents of Sardinia, Mount Orab and other smaller hamlets which urround them. One man in Mount Orabis living in open adultery with a prostitute, who shamelessly drives her paramour's wife away. This man is an object of attention from the White Caps. They declare that his presence is an insult to the pure wives and mothers of the community. He will be thrashed unless he leaves the town

within the next two weeks.

The action of the White Caps at Bur ford was justified by the moral atmos-phere in that locality. Bill Whitely and Bell Berry, two men accused of wife-beating and petty stealing, are doing much better since they were called up-on by the masked horsemen. They now work steadily and none of their neighbors have missed wood and chick-

After reading the above, what do you think of the work of the White Caps? It would seem that no well behaved person has ever yet been disturbed by them, and that it is only evil doers who are terrorized. This being the case, we shall not consider the suppression of the White Caps as being in the direction of better morals; although it is in the interest of law and order to suppress them. Still, the great question is, "who's afeered."

THE Democratic Congressmen from Virginia, North Carolina, Kentucky and some portions of Tennessee will probably vote for the Senate tariff bill on account of the radical reduction in the tobacco tax. These States grow most of the tobacco, and they regard it as an agricultural product, and not subject to taxation by the Federal government any more than wheat, corn or rye. If the Republicans of the Senate therefore, pass the bill now pending it is safe to say that it will receive the votes of a number of Democratic Congressfor the bill it is liable to pass. The Republicans, now that the election is over, agree to the proposition that the tariff must be revised and the surplus reduced.

The same methods by which the Republicans carried Indiana were extensively employed by them in New York, Connecticut, New Jersey and West Virginia. A New York Herald correspondent who has been making investigations in Connecticut, says the vestigations in Connection, says the Republicans expended \$200,000 in that little state and that they captured the "floaters" folly ten days before the election. "Votes were quoted at about \$5 in the large places, up to \$20 in very close towns," but very few, we are told, were marketed at the latter figure.
